

Sprint 3 Report, Pseudo, **Pseudonauts**, 11/24/2020

Actions to stop doing:

The team is satisfied with our current process, as we have been able to complete our user stories for sprint 3

Actions to start doing:

Clean up code and fix bugs in issue's tab in github
Refactor the gui file

Actions to keep doing:

Team thinks we have been doing well and can keep doing what we have been to complete the last sprint

Work completed/not completed:

All User Stories were completed:

As a user, I want to write functions so that I don't have to write a bunch of lines over again (5)
As a user, I want to create if-statements so that I can branch and execute different code (3)
As a user, I want to loop code so that I don't have to copy multiple lines of code over again (3)
As a user, I want to loop my code by specifying a condition(3)
As a user, I want to be able to use boolean variables/logical statements (2)
As a user, I want to add comments to part of my code so that I can summarize each code section(1)
As a user, I want to import other pseudo files so that I don't clutter my main pseudo file (5)
As a user, I want to run python code in my pseudo code (1)

Work completion rate:

Total number of User Stories completed:	8
Total number of Days in Sprint:	14
Total number of Ideal Work Hours:	100
Average User Stories/Day:	~.57
